Authorization for this supplemental examiner's amendment was given in a telephone interview with Brian Oaks on 4/23/07. This supplemental amendment was inadvertently omitted from the previous examiner's amendment (which was agreed to by applicant's representative on 2/28/07 and was seen at that time by the examiner as being necessary to clearly distinguish claim 1 over the previously applied prior art).

IN THE CLAIMS

Claim 1, line 7, at the end of the line, after the comma, --to control the on/off states of the shunt and series FETs-- has been inserted.
